Garibaldi , Carmine Red	" "
Gertrude , Rosy Pink	" "
Yellow Hammer , Golden Yellow	" "

PAPER WHITE NARCISSUS

There is no flower more largely grown for winter bloom than this fragrant French Narcissus. Large quantities are forced every year, either in soil or pebbles and water.

Mammoth Bulbs (15 ctm. circum). Per doz. \$1.50; per 100 \$10.00; per 1000 \$85.00.

Large Bulbs (13-14 ctm. circum.), Per doz. \$1.25 per 100 \$9.00; per 1,000 \$75.00.

SOLEIL D'OR

The Yellow Paper White. Per doz. \$2.50; 100 \$18.00; 1000 \$160.00.

CHINESE SACRED LILIES

Per doz. \$1.50; 100 \$10.00

CALLA LILIES

	Doz.	100
Calla Aethiopica , or Lily of the Nile . The old favorite white Calla Lily. Mammoth Bulbs	\$5.00	\$40.00
Elliottiana (Yellow Calla). Flowers deep golden yellow	5.00	40.00
Godfrey , small white free flowering	5.00	40.00

LILY OF THE VALLEY

Retarded crowns for growing indoors.

These bloom within 3 weeks after planting, and by putting some in every 10 days or so, a continuous bloom is assured.

Selected Pips, case of 250, \$20.00; 500 \$37.50; 1000 \$70.00.

Pebbles and Ornamental Chips

For use with Nareissus, etc., in bowls

Colored Pearl Chips, per qt.....	.35
White Pearl Chips, per qt.....	.25
Natural Pebbles, per qt.....	.10

Add 10c per quart for mailing.

BULB FIBRE

A natural peat fibre, full of nutritious properties for the growing of flower bulbs indoors. This compost acts as a moisture-retainer, which promotes the growth or roots on the bulbs, at the same time releasing its organic fertilizing elements in soluble form, developing and maintaining a steady and sturdy growth on the bulbs until the flowers have matured. **Pk. \$1.75, bus \$6.50.**

LILIES

HARDY GARDEN LILIES

GREENHOUSE LILIES

	Doz.	100
Harrisii. The true Bermuda Easter Lily. Mammoth Bulbs, 11-13 in. cir.	16 00	125 00
Extra Large Bulbs 9-11 in. cir.	7.50	50.00
Large Bulbs, 7-9 in. cir.	5.00	30.00
Azorleum. Similar to <i>L. Harrisii</i> excepting longer in the trumpet. 9 to 11 in. cir.	8.00	60.00
Longiflorum formosum. Earliest of Easter Lilies. Free of disease and easy to force.		
Top-size Bulbs, 10 to 12 in. cir.	8.50	60.00
First-size Bulbs, 9 to 10 in. cir.	7.50	50.00
Longiflorum giganteum. Large flowers of excellent quality.		
9 to 10 in. cir.	6.00	45.00
10 to 12 in. cir.	8.50	65.00

Auratum (The Golden-banded Lily of Japan). One of the stateliest of all the hardy Lilies; grows 3 to 6 feet high. Large fragrant flowers of delicate ivory white, spotted crimson with center striped golden yellow.

	Doz.	100
Mammoth bulbs	\$7.50	\$55.00
Extra-large bulbs	6.00	45.00
Large bulbs	3.50	27.00

Candidum (Madonna or Annunciation Lily). The bulbs we offer are the true, hardy, Northern French-grown; arriving here in September, they should be planted at once. They make their leaf growth in October, then die down and bloom late the following June—stately spikes of large white, fragrant flowers with yellow anthers.

	Doz.	100
Mammoth Bulbs	\$4.50	\$35.00
Specially Selected Top Size Bulbs	8.00	60.00

Batemanniae. A sturdy handsome lily 3 to 4 ft. in height, bearing from 5 to 8 apricot colored flowers in July and August

4.00 30.00

Canadense (Canadian Bellflower Lily). mixed red, orange and yellow. Grows 2 to 5 feet high. Flowers in June and July

2.50 18.00

Croceum. 3 to 4 ft. Golden yellow flowers in June and July

Henryi (Yellow Speciosum). 4 to 5 ft. In form and habit resembles *L. speciosum*. Flowers shaded yellow, slightly varying in color, with dark brown spots. Blooms during August and September

8.00 60.00

Regale (*Myriophyllum*). 3 to 4 ft. One of the best garden Lilies. White flowers, trumpet-shaped, slightly suffused pink, with yellow center; very fragrant

10.00 75.00

Speciosum album. 3 to 4 ft. This is a very dainty white Lily. It flowers in the border or amongst the shrubbery at the same time as *L. auratum*, and is one of the most popular varieties. Used extensively in pots for greenhouses. Extra-large bulbs

6.50 50.00

Large bulbs

4.50 35.00

Speciosum Melpomene. Large, dark crimson spotted flower of striking appearance. Profuse flowering. Mammoth bulbs, 11 to 13 in. cir.

6.50 50.00

Extra-large bulbs, 9 to 11 in. cir.

4.50 35.00

Speciosum rubrum. 3 to 4 ft. Bears an abundance of spotted rose flowers. Blooms outdoors Aug. and Sept. Mammoth bulbs, 11 to 13 in. cir.

6.50 50.00

Extra-large bulbs, 9 to 11 in. cir.

4.50 35.00

Tigrinum splendens (Tiger Lily). Orange flowers spotted black. Very hardy. Blooms in August

2.50 20.00

Tigrinum flore-pleno (Double-flowering Tiger Lily).

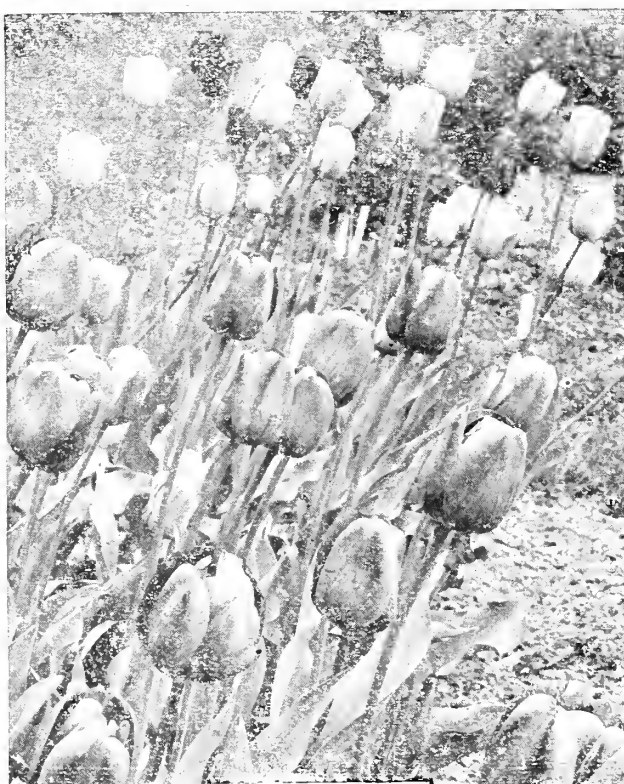

3.50 25.00

DARWIN TULIPS

These glorious Tulips can be seen during the month of May, thousands of them in every large estate that boasts of the beauty of its year-round wealth of flowers, and hundreds in the gardens of smaller home owners, whose limited space controls their enthusiasm and prevents their planting more.

Plant Darwin Tulips in September, October, 6-8 inches apart and 4-5 inches deep. They make a splendid showing in large beds, or in irregular lines 20-30 inches wide, bordering the House or Shrubbery.

	Doz.	100
Afterglow (26 in.) Deep rosy-orange shaded salmon at edges; inside deep orange with yellowish base.....	\$1.35	\$10.00

Louis XIV (28 in.) Dark purple, flushed bronze with broad margin of golden brown. A unique Tulip of great and striking beauty	1.50	10.00			

Special Mixture of Breeder Tulips

A wonderful assortment of choice kinds, well proportioned as to color.
Doz. 75c; 100 \$5.00; 1000 \$45.00

COTTAGE TULIPS

Also called May-Flowering Tulips

The Cottage Tulips form a distinct type which should be included in every garden. They flower at about the same time as the Darwin and Breeder varieties but are infinitely more varied in form, and the colors, generally speaking are brighter and more decided.

	Doz.	100
Avis Kennicott (23 in.) Rich yellow, black base, large flower	1.75	12.00
Beauty of Bath (22 in.) Light yellow tinged with lilac	2.00	14.00
Bouton d'Or (20 in.) A dainty ball-shaped bloom of rich golden yellow60	4.00
Caledonia (22 in.) A distinct and striking bright orange red shade65	5.00

Cramoisi Brilliant , Deep Carmine75	5.00
Lutea Major , Bright yellow striped crimson and green75	5.00
Perfecta , Yellow and red striped75	5.00
Mixed75	5.00

BOTANICAL TULIP

Clusiana. Outer petals bright cherry-red, inner petals creamy white, with violet base; small flower, but very distinct and beautiful. Suitable for rock-gardens and herbaceous borders. \$1 per doz., \$7 per 100, \$50 per 1,000.

Single Early Tulips

Single Early Tulips comprise a useful class of bulbs as they flower during the month of April in advance of the Darwin and other late blooming varieties. The bulbs should be planted about four inches deep in fairly good soil, better singly at a distance of about 8 inches apart, or in small groups of three or four at twelve inches apart. This latter method is very suitable when the bulbs are to

flower in borders in which perennials or other plants are already growing. The varieties offered below include a good variety of colors and will present a very attractive appearance at a time of the year when there is very little else to brighten the garden. They are very suitable for forcing in greenhouse or growing in pots for early indoor decoration.

	Doz.	100
Artus. Brilliant scarlet; good bedder	\$.60	\$ 4.00
Belle Alliance. Scarlet, sweet scented, fine forcer	.80	6.00
Chrysolora. Golden yellow; finest bedder	1.00	7.00

MIXED VARIETIES

	Doz.	100
An excellent mixture of many varieties; fine for naturalizing	7.00	60.00

BOWLS—We have a great variety in size and color for growing bulbs indoors,

HYACINTHS

The fragrance and stately splendor of the Hyacinth, its easy growth, both indoors and outside, and its magnificent response to a little special effort and care, make it one of the most popular of all bulbs for the home and garden.

DIRECTIONS FOR CULTURE IN POTS—Fill the pots with a light, rich potting soil, and have the tops of the bulbs just above the surface; give a good watering and set away in a cool place, covering them with about five inches of sand or coal ashes. In about eight weeks they may be taken to the room in which they are to flower. By bringing in a few pots at a time about two weeks apart, a succession of bloom may be had.

GLASS CULTURE—Single Hyacinths do better than Double in glasses, as they produce a much larger and more showy truss. Place the bulbs in the glasses, which should be filled with water so it touches the bottom of the bulbs, put them in a

cool dark place, or on a shelf in the dark part of the cellar, for from six to eight weeks, changing the water every ten days or two weeks; then remove them to the light. If then placed in a cool room they will produce very fine spikes and remain in bloom a long time. A small piece of charcoal in the water is beneficial.

PLANTING IN THE OPEN GROUND—October and November is the proper time, but they can be set out any time as long as the ground is open and the bulbs remain sound. The bulbs should be planted evenly about six inches deep (to the bottom of the bulbs), and from five to six inches apart; if planted at uneven depths they will not bloom at the same time, but irregularly.

The following varieties are offered in 3 sizes:

	Doz.	100
Exhibition Quality (Mammoth Bulbs)	3.50	25.00
Forcing Quality (Selected Bulbs)	3.00	22.00
Bedding Quality (Large Bulbs)	2.00	15.00

White

La Grandesse. Large pure white.
L'Innocence. Pure white.
Queen of the Whites. Pure white. Large truss.

Red and Pink

Gertrude. Rosy pink, large truss.
Gigantea. Delicate rose, large spike.
Lady Derby. Best rose-pink.
Roi des Belges. Scarlet, fine truss.

Blue Shades

Grand Maitre. Deep porcelain blue; extra fine.
King of the Blues. The best dark blue.
La Peyrouse. Porcelain blue.
Marie. Dark blue, fine spike.
